ABOUT US

Family owned... and family operated, West Coast Poly is proudly West Australian.

Manufacturing our range of products from our modern facility in Canning Vale, we are proud to be part of our great state's rich heritage of local manufacturing & innovation.

We first opened our doors in 1999, with an ambition to produce the highest quality & robust, long lasting polyethylene storage tanks, that are perfectly suited for our states farmers. Vessels that were West Australian designed and moulded in a "one piece" method offering an unmatched strength and durability suited to our unique West Australian environment.

As West Coast Poly continued to grow and develop throughout our journey, our customers have grown with us, establishing a loyal long term clientele. Originating in agriculture servicing our states primary producers, then expanding throughout the states resource, mining, industrial and civil sectors.

OUR TECHNOLOGY

We always strive to be at the forefront of the latest roto-moulding technology, we are continuously investing in the latest software, machine technology and refining our techniques.

In 2020 we introduced the new SRM 6500 Series 3-Sided Shuttle Rotomoulding Machine, one of the largest machines of its type. Along with our 3 large twin shuttle machines, our manufacturing process is second to none.

In 2023 we also added our 5th machine, 4.1m 4 arm carousel, with capabilities of running 4 cycles at once. This new machine will help us continue to grow & help us maintain our high level of customer service.

Every tank that we manufacture is rigorously tested, through methods of ultrasonic measurement and low temperature impact testing. Ensuring the walls are thick, strong and rigid. This testing is one of the reasons we are ISO & Watermark certified and why you always get a superior quality long lasting WA made tank.

BRAND AMBASSADOR - JOSH KENNEDY

Premiership player Josh Kennedy has represented our state upon the nations biggest stage. Now he is teaming up with us to represent local manufacturing & local rural communities.

Growing up in the regional town of Northampton, WA, Josh has seen plenty of dry days & knows the importance of quality water storage. We also know the importance of grass roots footy in the country, & how it brings our communities together.

Along with our 16 year partnership with the WACFL, Josh & West Coast Poly are trying to enrich our local footy & our local communities.

Water Storage Tanks

AGRICULTURAL RANGE

Our agricultural water storage tanks have the great advantage of being strong, durable and lightweight, making them versatile and even relocatable if required.

A great choice for storing stock, spray, household water, as well as bore water with elevated salt or iron content. Standard fittings are installed into your tank at the time of delivery, to best suit your needs.

FREE DELIVERY

within 800kms of Perth

Our logistics and transport team make sure your tank is delivered safely and on time.

Using our large fleet of trucks, that are equipped with purpose-built trays and low-profile trailers for safe and efficient transport to site. Our fleet of trucks are dispatched throughout the state each week, ensuring a prompt delivery of your tank. And because of our large fleet size, we can offer you the flexibility of a quick order turn-around if required.

As part of our delivery service, our transport team members will install the tanks standard fittings for you on site. From our factory to your door, in the hands of West Coast Poly's professional logistics team & delivery drivers, you can be sure of an smooth delivery and fit-out of your tanks.

If you have any variations or special requirements when it comes to your delivery, discuss it with our team at the time of quotation or order.

“

Just a quick note, our delivery this week was great. Dale was very professional, safe and friendly + communicated delivery clearly and in a timely manner. He made set up look like a breeze... again thanks Dale.

Sue & Arnold W

FIREGUARD®

COMPACT FIRE FIGHTING UNITS

“ Compact design to fits easily onto ute tray backs, trucks or trailers”

Designed with size in mind, these compact units easily fit on your tray back ute or trailer and are quickly readied for action.

Expertly engineered by our team this all-in-one unit, comes complete with a fast release and high output hose reel. Paired with a reliable davey pump and honda engine, attached to a galvanised skid frame.

FIREGUARD® COMPACT FIRE FIGHTING UNITS (total dimensions, tank & skid frame)

For Life on the Land WATER TROUGHS

West Coast Poly's stock troughs offer the highest levels of practicality and reliability

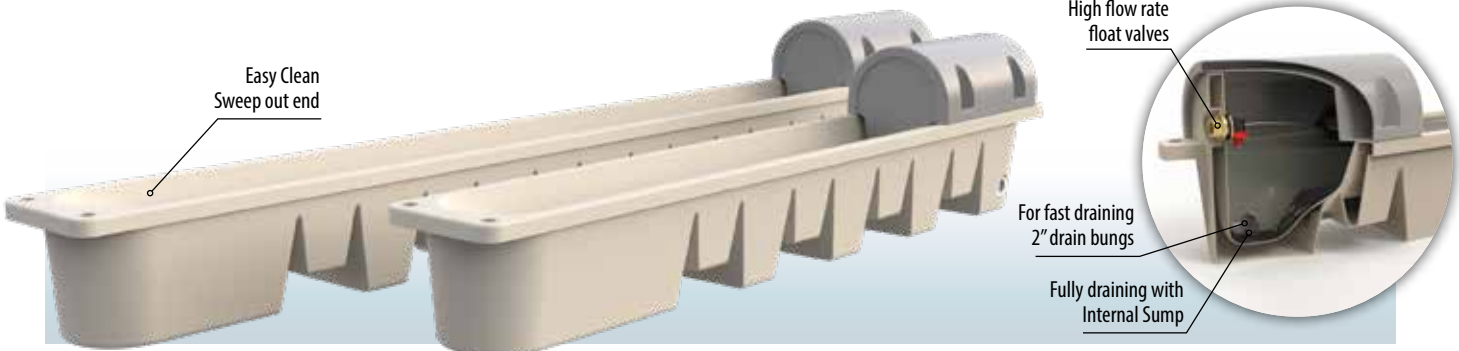

With high volume capability, our troughs are constructed using Linear Medium Density Polyethylene. Making them tough, durable with high levels of impact resistance, while still being suitable for all water types. Thanks to their clever design, our troughs are easy to maintain and clean, with robust protected fittings so even the most curious livestock can't damage them.

RECTANGULAR SUPA TROUGH

Product Code	Volume	Width	Length	Wall Height	Price
WCP1550ST	550L	0.80m	3.40m	0.50m	\$1,485
WCP800ST	800L	0.80m	4.60m	0.50m	\$1,705

INCLUDES: Float valve – standard 1½" (40mm) Poly (2" at additional cost), hold down restraint points both ends, heavy duty float valve cover, fully draining with internal sump and 3" drain bung, easy clean sweep out end.

RECTANGULAR LONG TROUGH

Product Code	Volume	Width	Length	Wall Height	Price
WCP170LT	170L	0.42m	3.20m	0.40m	\$913
WCP300LT	300L	0.42m	4.60m	0.40m	\$1078

INCLUDES: High flow float valve – standard 1" (25mm) Poly (1¼", 1½" or 2" at additional cost), hold down restraint points both ends, heavy duty float valve cover, fully draining with internal sump and 2" drain bung, easy clean sweep out end.

“Bringing the best in strength and durability in a round trough”

HEAVY DUTY ROUND TROUGH

LIQUID FERTILISER CARTAGE TANKS

Spend less time filling and more time spraying with our range of fertiliser cartage tanks.

Ranging from 600-17,000 litres, with the largest in the range able to fill up a 5000L sprayer 3.5 times, the equivalent to tripling your sprayer capacity. Constructed using a Linear Medium Density Polyethylene (LMDPE) and quality stainless steel fittings that provide outstanding chemical compatibility, corrosion resistance and faster liquid transfer, saving precious time during your busy periods.

BAFFLE BALLS - 355mm CLIP LOCK

Designed for the safer transportation of liquid, our baffle balls reduce liquid surge within the tank when cornering and braking. This improves the safety and stability of your vehicle.

Product Code	Baffle Balls	Unit Price
WCPBAFF	Supply Only - <i>unassembled</i> (1ball per 40L)	\$8.80
WCPBAFFTP	Assembled & Installed in Tank (1ball per 40L)	\$12.10

*Recommend filling 100% of the tank.

WHY OUR BAFFLE BALLS?

- Vehicle stability and hazard mitigation
- Reduction in maintenance costs
- Food grade polypropylene
- Virtual Volume (1% actual volume)
- 6 securing clips means these don't come apart like many other baffle balls
- Our baffle ball occupies less than 1% of total tank volume

Cartage Tanks SKID FRAMES

SKID FRAMES - CARTAGE TANKS

Our skid frames are designed & made in house at our modern Canning Vale facility & are commercial heavy duty grade. The West Coast Poly HD Skids are HDG (Hot Dipped Galvanised) for high durability. With usability in mind we designed our skid frames with multi sided fork tine lifting points giving you maximum versatility and mobility for your cartage tanks.

We can customise our skid frames to suit whatever needs you require, simply contact our friendly sales team.

WCP25000MX	25,000L*	2.60m	3.78m	22,000L	\$20,196
WCP38000MX	38,000L*	3.15m	4.30m	35,000L	\$29,073
WCP50000MX	50,000L*	3.45m	4.60m	47,000L	\$31,306

Pricing represents 240v units -415v available on request.

STANDARD FITTINGS INCLUDE

- 240v single batch mixers
- 5,000L to 14,000L: 50mm (2") poly outlet + ball valve
- 25,000L to 50,000L: 80mm (3") poly outlet + stainless steel ball valve.
- Hinged PE loading hatch

ADDITIONAL OPTIONS

- Low level/variable batch mixers
- 415v mixers
- Internal baffles
- Flanged fittings
- Fully draining floor
- Level indicator
- **OTHER TANK SIZES ON REQUEST**

APPLICATIONS

- Chemical applications
- Fertiligation
- Individual recipes combinations
- Broadacre/Viticulture/Horticulture

BENEFITS

- High agitation rate for rapid batch turnaround
- Aggressive floor scouring to prevent sediment
- Versatility to produce specific fertiliser/chemical recipes

*Additional oversize delivery charge P.O.A. 38,000L and 50,000L require mixer to be installed onsite, extra cost involved depending on delivery destination.

Storage and Cartage DIESEL TANKS

DIESEL STORAGE TANKS

Keep your machinery going for longer, our diesel tanks are a reliable back-up during those busy seasons.

Designed and manufactured to be strong and durable for our WA conditions. Ideal for both secure diesel storage and fast convenient diesel delivery, keep your machinery going for longer with our range of diesel tanks.

DIESEL STORAGE TANKS + ITALIAN MADE PIUSI PUMP KIT

5,000L	WITH PUMP	NO PUMP
Product Code	WCP5000DSP	WCP5000DS
Diameter	1.93m	1.93m
Apex Height	2.07m	2.07m
Price	\$9,328	\$4,752

10,000L	WITH PUMP	NO PUMP
Product Code	WCP10000DSP	WCP10000DS
Diameter	2.35m	2.35m
Apex Height	2.64m	2.64m
Price	\$10,329	\$5,951

STANDARD FITTINGS INCLUDE

TANKS INCLUDE:

- 50mm (2") Fill line
 - 40mm Lockable drain valve
 - Fully sealed roof to prevent water ingress
 - Volume level sight tube with isolation valve
 - 80mm (3") Overflow port with ingress protection and vermin proof screen
 - Earth/Ground cable
- OTHER SIZES AVAILABLE ON REQUEST**

WITH PUMP:

- 12v or 240v Italian made PIUSI Diesel pump kit
- Flow meter sealed within steel cabinet
- Earth/Ground cable
- Flow rates of 80L/min for the 12v and 90L/min for the 240v
- Delivery hose with auto shut off nozzle: 12v = 4m hose & 240v = 7.5m hose

Optional 240v Cube 90 Diesel Pump on Pedestal Stand

STANDARD FOR THE STORAGE OF DIESEL FUEL (AS1940:2017)

West Coast Poly diesel tanks are designed in accordance with AS1940:2017 storage and handling of combustible liquids.

Tank installation including bund requirements are the responsibility of the user and should be as per required in accordance with AS1940:2017.

Stainless Steel Mounting Pins

DIESEL CARTAGE TANKS

Keep the engine hours in the paddock and not on the drive to fill up.

Ranging from 600 - 10,500 litres, made using West Coast Poly's superior manufacturing method resulting in a tank that is light weight yet strong and durable ensuring your diesel is properly cared for.

Water Storage Tanks RESIDENTIAL RANGE

We offer a range of domestic rainwater tanks to suit the suburban environment.

Our tanks are fully certified and manufactured for the household blocks where space is limited. Slimline tanks that fit neatly under the eaves and traditional round tanks make up the residential.

The rainwater tanks are available in a range of sizes, styles and colours. You are sure to find the perfect tank for your requirements to complement the surrounding environment of your home.

RESIDENTIAL TANKS BENEFITS:

- Space saving designs
- Can be placed directly onto pavers
- Reinforced band allows tap placement for easy access
- Easy to relocate
- Manufactured locally in Western Australia with a 10 year guarantee
- Variety of colours, UV resistant

WHY A WATER TANK FOR YOUR HOME?

A simple water tank can help you adapt to Australia's unique changing seasons, from droughts to flooding rains, a water tank can help your household make the most of seasonal situations.

During rains, the excessive water run off that cascades into the garden eroding soil, will now instead be collected into your tank, stored, then used as a saviour in the dry months. Utilise the collected water to wash your clothes, flush your toilet or water thirsty gardens, and watch them thrive, even in the dry summer months.

These utilisations leave you less reliant on the water mains and in turn can reduce the cost of your water bill, on top of making your property more environmentally sustainable.

INSTALLATION

YOUR TANK COMES INSTALLED WITH STANDARD FITTINGS:

- 19mm outlet tap
- 50mm overflow: sizes 320L - 1,500L
- 19mm drain bung
- 90mm overflow: sizes 2,500L - 3,700L
- Easy maintenance leaf strainer
- Screw top lid
- Available in a range of colours matched to the Colorbond® range

PLEASE NOTE: A delivery charge of \$110 applies to all Residential Tanks (320L - 3,700L), delivered direct to customers within 800kms of the Canning Vale factory.

Slimline tanks: 1,500L, 2,500L, 3,000L

WATER STORAGE

ADVANCED MANUFACTURING TECHNOLOGY

MADE IN WESTERN AUSTRALIA

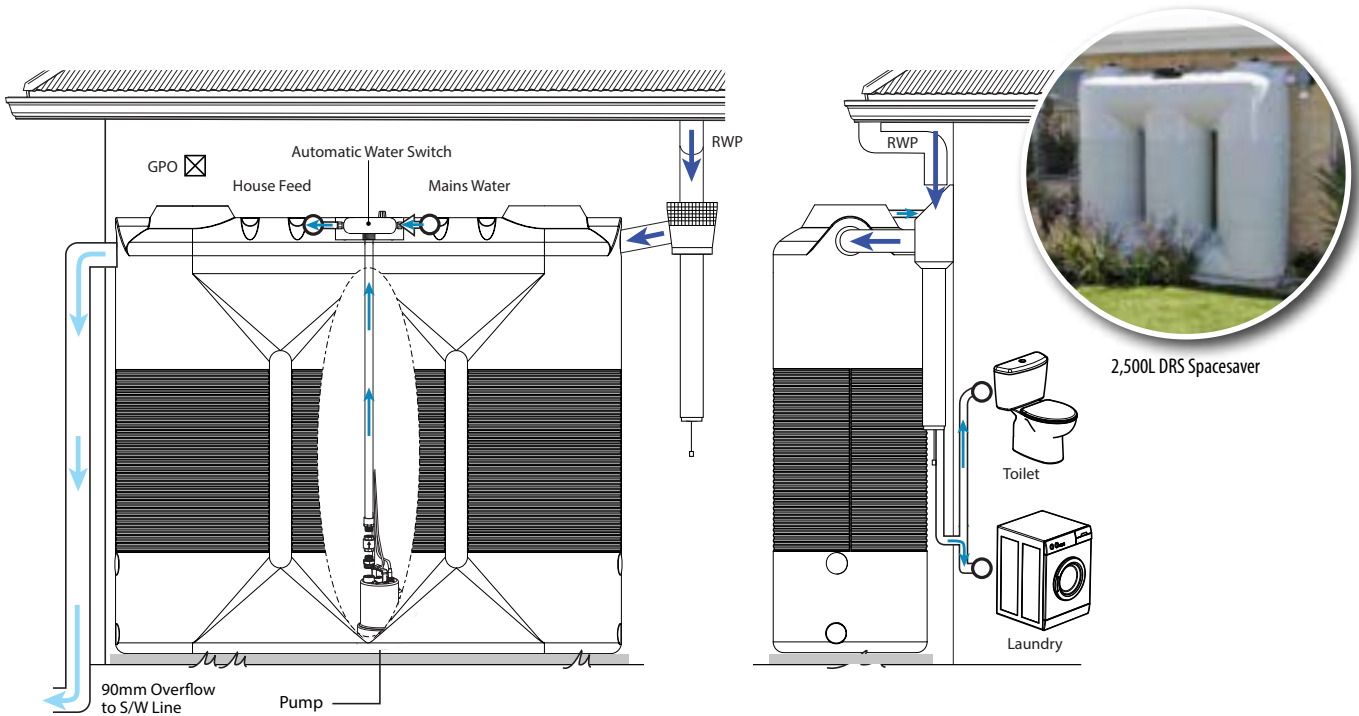

RAIN WATER HARVESTING

All In One Automatic Rainwater Harvesting Systems.

An all-in-one system where technology does the work for you when it comes to collecting and utilising your rainwater for inhouse reuse.

If your rainwater tank is running low, the roof mounted controller automatically switches the water flowing to the house from the tank to water directly from the water mains. Switching back to rainwater automatically once your tank's water is replenished. It will always use rainwater first and you will always have an uninterrupted waterflow to your home.

AUTOMATIC RAINWATER HARVESTING SYSTEM INCLUDE:

Roof Mounted Auto Water Switch Controller, Mains Water Isolation Valve + SS Connection Hoses

Divertron 1200 Submersible Pump

Standard 90mm Overflow Port

250mm Leaf Strainer Inlet

19mm Outlet Tap

250mm Screwed Inspection Hatch

RAINWATER HARVESTING SYSTEM + ROUND TANK

Volume	Product Code	Diameter	Wall Height	Height/Inlet	Price

3,000L - DRS Terrace	WCP3000SDRS	1.99m	0.80m	2.52m	\$3,190

Other tank sizes are available on request. Installation is an additional cost. A delivery charge of \$110 applies to all Residential Tanks (320L - 3,700L) within 800kms of the Canning Vale factory.

EXTRA FITTINGS & ACCESSORIES

Build the ideal water tank solution package for your home with our range of quality accessories.

Make sure you make the most of your new water tank and deliver a high volume of quality water into your home.

We have categorised our range of residential tank accessories in 5 easy steps to help you design the perfect water tank solution for your home.

1. COLLECT AND PROTECT YOUR RAIN WATER

Keep debris out of your rain harvesting system so it stays clean

LEAF EATER ADVANCED - \$66

Easily mounted, it prevents leaves entering the catchment pipes with it's fine mesh screen.

TOTAL RAIN - \$165

The ultimate all-in-one rainwater cleaning device, filters leaves and diverts the first flush.

2. DIVERT YOUR RAINWATER

Divert contaminated roof run off keeping your tank clean

FIRST FLUSH WATER DIVERTER - \$46.20

Gives your tank the best water by diverting the first flush of rain water from your roof.

FIRST FLUSH CARROT WATER DIVERTER - \$99

Its unique compact design takes up minimal space & diverts the first flush without the chamber.

3. WATER MOVEMENT

Make sure your water flows to where you need it too

ONGA JMP100 PUMP - \$638

An economical household pressure system with high performance & reliability.

DAVEY HP65-06T WITH TORRIUM2 - \$1,419

Offers perfect water pressure with a small water pump that can fit into a tight spot.

4. FINAL STAGE FILTRATION

Ensure your water is ready to use through proper filtering

DAVEY TWIN FILTER HOUSINGS AS10J - \$462

Davey twin filter housing kits are assembled side by side on a stylish bracket for ease of installation.

DAVEY UV WATER DISINFECTION KUV57A - \$2,200

Delivers safe, clean water - using the power of ultra violet light for reliable, effective, chemical-free disinfection.

OTHER FILTRATION SOLUTIONS AVAILABE UPON REQUEST

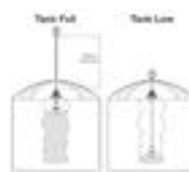

5. MONITOR YOUR WATER LEVEL

Solutions that allows you to easily check the water level in your tank at a glance

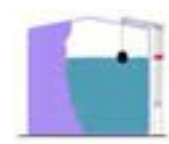

LEVETATOR - LEVEL INDICATOR - \$132

Accurately shows the level of water on the water tank wall. Great for tanks on stands & residential tanks.

HANSEN LEVEL ALERT - \$286

A maintenance free simple fluid level indicator that can be mounted on tank. Features easy adjust nut & security lock, HiViz Low wind resistant float & stainless steel fastenings.

LIQUIDATOR V2 - \$276

The Liquidator uses a vertical guide tube. The indicator slides up and down on the outside of the tube while the counterweight is contained in it.
